RSO Recognized Security Organization

# Vulnerability analysis, security and safety plans

## for ports and transport hubs

**PORTAHEAD** provides assistance in preparing vulnerability analysis, security and safety plans and audits for ports and transport hubs.

**Norwegian Coastal Administration** - NCA - has certified PORTAHEAD as Recognized Security Organization (RSO) to perform work in relation to

- SOLAS chapter XI-2 and the IMO ISPS code
- EU-directive 725/2004 on enhancing port security
- EU-directive 884/2005 on procedures for conducting Commission inspections in the field of maritime security
- EU-directive 2005/65 on enhancing port security

**PORTAHEAD** is staffed by highly motivated and experienced security advisers with previous experience as RSO, from police and emergency response, navy and logistics, as well as risk and vulnerability assessment with the preparation and evaluation of safety and emergency plans.

**PORTAHEAD is a vendor independent Norwegian Advisory Consultancy in Information and Communication Technology (ICT).**

**Primary business areas are:**

- **Infrastructure**
- **Information Security**
- **Project Management**
- **Public Tenders**
- **System Advice**
- **Restructuring**

**PORTAHEAD is certified by Norwegian Coastal Administration as a Recognized Security Organization related to port security and information and communication technology.**
